
Faculty Vitae

1. Name

Mohammed Wahhab Abdulrazzaq

2. Education

M.Sc. in Network Engineering and Internet Technology -College of Information Engineering- Al-Nahrain University - 2014

B.Sc. in Information Engineering - College of Information Engineering - Al-Nahrain University -2011

3. Academic experience

- **Lecturer and Lab Official** at University of Information Technology and Communications - College of Engineering for the subject of (**Communications**) - 2nd grade

- **Lecturer and Lab Official** at University of Information Technology and Communications - College of Engineering for the subject of (**Network and System Administration**) - 2nd grade

- **Lecturer** at University of Information Technology and Communications - Business Informatics College for the subject of (**Data Structure**) - 2nd grade

- **Lecturer** at University of Information Technology and Communications - Business Informatics College for the subject of (**Network and System Administration**) - 4th grade

- **Lecturer** at Al- Nahrain University - College of Information Engineering for the subject of (**Wireless Sensor Network**) - 4th grade

- **Lecturer** at Al- Nahrain University - College of Information Engineering for the subject of (**Network Simulation**) - 3rd grade, 4th grade

- **Lecturer** at Al- Nahrain University - College of Information Engineering for the subject of (**Network Security**) - 4th grade

- **Lecturer** at Al- Nahrain University - College of Information Engineering for the subject of (**Image Processing**) - 3rd grade

- **Lecturer** at Al- Nahrain University - College of Information Engineering for the subject of (**Advance OS**) - 4th grade

- **Lecturer** at Al- Nahrain University - College of Information Engineering for the subject of **(Wireless and Mobile Communications)** - 4th grade

- **Lecturer** at Al- Nahrain University - College of Information Engineering for the subject of **(.Net Programming)** - 3rd grade

- **Lecturer** at Al- Nahrain University - College of Political Science for the subject of **(Computer Fundamentals)** - 1st grade

4. Non-Academic experience

- Network and Servers Administrator at University of Information Technology and Communications.

- Team Admin of Electronic Finger Print System.

- Team Admin of the Digital Content System.

- Team Admin of following up systems application in UOITC.

- Team Admin of University's official Website Translation.

- Team Member of Network Design and Administration for the Annual International Conference in the University.

- Team Member of Network Design and Administration for many meetings and workshops for the UOITC.

- Team Member of 'The Iraqi Journal for Computer and Informatics' as Proof Reader.

- Team Member of Electronic Investigation for Social Media.

5. Certifications or professional registrations

- Cisco Certified Network Associate - Industrial -2016

- International IC3 - 2012

7. Honors and awards

Award of Participation in the World's Day of Communication 2018.

Awards of participation in the UOITC Annual Conference 2016-2017-2018.

Award of attendance and participation of many conferences and workshops.

9. Publications/Presentations

Abdulkareem Abdulrahman Kadhim, Mohammed Wahhab Abdulrazzaq, 2014. "Efficient Routing Techniques for Wireless Sensor Networks". *Journal of Applied Sciences*, 14: 3479-3485.
