
Faculty Vitae

1. Name

Azza Hazem

2. Education

BSc Dept. Statistics- Administration and Economic College - M0sul University

MSc -Dept. Statistics- College of computers and mathematical sciences -M0sul University

3. Academic experience

Principles of Computer- Administration and Economics -2005-2006

Queuing Theory -Dept. - Programming engineer- 2006-2007

System analysis& database-Dept of Statistics-2007-2011

Neural networks -Dept of Statistics- 201-2013

Structured programming- dept of Operation research & Intelligent Techniques -2012-2014

Mathematics 2018-2019

Statistics and Probability 2018-2019

7. Honors and awards

Dean of Mosul University/ Iraq 2010

technical Institute /Iraq 2010

Dean of Administration and Economics 2013

Dean of Mosul University/ Iraq 2013

9. Publications/Presentations

- The use of neural networks in forecasting of time series with Application on Consumption of Electrical Power in Nenavah Governe-rate- No. 8- 2005
- Iraqi journal of statistical sciences Comparison between adaptive depuration and neural

networks with Applications No. 9 - 2005- Iraqi journal of statistical sciences

- Use neural networks to forecasting Exponential Time Series-No. 13- 2008
- Iraqi journal of statistical sciences The use of artificial neural networks in multiple linear regression analysis -2009
- Tanimate Al-Rafedeen Journal / College of Administration and Economics Scheduling the event in the simulation systems with intermittent incidents experimentation queuing systems-2009-Second Scientific Conference of Mathematics and Statistics
- Comparison between artificial neural networks and least-squares linear and nonlinear models- 2011-Iraqi journal of statistical sc Iraqi journal of statistical sciences Modeling software system to verify the identity through iris- No. 22 - 2012
- Iraqi journal of statistical sciences Modeling software system for e-government with the application on a fingerprint 2012- Business Intelligent and Knowledge Economy/ Jordan
- E-learning and the active role the level of university education-2013-Conference of computer and Internet center
